

PRESS RELEASE

Reuters/Ipsos Poll: Core Political & 2020 Election Tracker Survey

About the Study

These are some of the findings of an Ipsos poll conducted between March 18-24, 2020 on behalf of Thomson Reuters. For this survey, a sample of 4,428 Americans age 18+ from the continental U.S., Alaska and Hawaii were interviewed online in English. The sample includes 1,981 Democrats, 1,680 Republicans and 428 independents. Weighting was then employed to balance demographics to ensure that the sample's composition reflects that of the adult population according to Census data and to provide results intended to approximate the sample universe. The precision of Ipsos online polls is measured using a credibility interval. In this case, the poll is accurate to within ± 1.7 percentage points, 19 times out of 20, had all Americans been polled. The credibility interval will be wider among subsets of the population. All sample surveys and polls may be subject to other sources of error, including, but not limited to coverage error, and measurement error. The poll also has a credibility interval ± 2.5 percentage points for Democrats, ± 2.7 percentage points for Republicans, and ± 5.4 percentage points for independents.

For full results, please refer to the following annotated questionnaire.

Coronavirus/COVID-19

TM1823Y20. As you may know, the stock market has recently experienced significant losses, temporary travel bans have been put into place, and there have been supply chain disruptions for several products. Additionally, many people are practicing social distancing, a practice of staying at home or not meeting in large groups of people as a way to stop the spread of coronavirus.

What type of impact do you think this will have on the economy?

Long term negative impact

Short term negative impact

No impact at all

Not sure

TM1736Y19. Which of the following comes closest to your opinion?

[RANDOMLY ROTATE SCALE, 1-3, 3-1]

Recently, the federal government has made it tougher for American farmers to succeed
