

## PRESS RELEASE

### Reuters/Ipsos Poll: Coronavirus Tracker

#### About the Study

These are some of the findings of an Ipsos poll conducted between March 18-24, 2020 on behalf of Thomson Reuters. For this survey, a sample of 4,428 Americans age 18+ from the continental U.S., Alaska and Hawaii were interviewed online in English. The sample includes 1,981 Democrats, 1,680 Republicans and 428 independents. Weighting was then employed to balance demographics to ensure that the sample's composition reflects that of the adult population according to Census data and to provide results intended to approximate the sample universe. The precision of Ipsos online polls is measured using a credibility interval. In this case, the poll is accurate to within  $\pm 1.7$  percentage points, 19 times out of 20, had all Americans been polled. The credibility interval will be wider among subsets of the population. All sample surveys and polls may be subject to other sources of error, including, but not limited to coverage error, and measurement error. The poll also has a credibility interval  $\pm 2.5$  percentage points for Democrats,  $\pm 2.7$  percentage points for Republicans, and  $\pm 5.4$  percentage points for independents.

For full results, please refer to the following annotated questionnaire.

## PRESS RELEASE

		All Respondents	Democrats	Republicans	Independents
TM1128Y17_21. Do you approve or disapprove of the way Donald Trump is handling the following issues? Coronavirus/COVID-19:	Strongly approve	23%	6%	50%	13%
	Somewhat approve	14%	8%	21%	15%
